

Spotly for Partners

Spotly is where families decide where to take their kids. Get discovered by the right parents, sell prepaid offers, take bookings, and see exactly who's interested — all from one dashboard.

The right audience

Parents actively planning kid-friendly outings — not a generic crowd. Every place on Spotly is vetted as family-friendly.

Cash upfront

Sell prepaid vouchers and get paid **before** the family even visits — instant cash flow plus new customers.

Real numbers

See views, clicks, bookings, vouchers, revenue & repeat clients — with trends, forecasts, and a per-branch breakdown.

Promotion that works

Float to the top of Discover with a badge + a highlighted map pin, right when families are choosing where to go.

Why families love it (and come back)

Spotly doesn't just help families find you — it helps them keep the memory. They save the day out, plan with AI, and turn their photos into printed albums. That's a parent who returns every weekend — and discovers you again.
